

METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA CONFLICT-OF-INTEREST CODE

The Political Reform Act (Government Code Section 81000, et seq.) requires state and local government agencies to adopt and promulgate conflict-of-interest codes. Agencies must consider amendment of their codes on a bi-annual basis. Because Metropolitan Water District of Southern California (Metropolitan) is a multi-county local jurisdiction, the Fair Political Practices Commission (FPPC) has exclusive authority to approve the terms of Metropolitan's Conflict of Interest Code (Code). After approval by FPPC, the Code has the force of law.

The FPPC last approved Metropolitan's Code in 2017. These amendments are the result of extensive internal review and informal consultation with FPPC staff. This amended Code replaces the 2017 Code.

1. Incorporation of standard conflict of interest codes terms

FPPC has adopted a regulation (2 Cal. Code of Regs. Sec. 18730) that contains the terms of a standard conflict-of-interest code, which can be incorporated by reference in an agency's code. After public notice and hearing, the standard code may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act.

Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. This regulation and the attached Appendices, designating positions (Exhibit A) and establishing disclosure categories (Exhibit B), shall constitute the conflict-of-interest code of the Metropolitan Water District of Southern California.

2. Where to file Statements of Economic Interests

Individuals holding designated positions shall file statements of economic interests with Metropolitan's Office of Ethics, which will make the statements available for public inspection and reproduction (Government Code § 81008). Statements for all designated positions will be retained by Metropolitan's Office of Ethics.

3. New positions and consultants

A "designated position" includes an individual serving in a new position in which the individual makes or participates in the making of decisions and an individual who is a consultant as defined in FPPC Regulation 18701. These individuals must file under the broadest disclosure set forth in this conflict-of-interest code. However, the Ethics Officer may determine disclosure that is tailored to the range of duties or contractual obligations for such individuals as long a clear explanation of the duties and disclosure requirements is provided in writing. Individuals serving in a new position must file under this provision until the position is added to this conflict-of-interest code. The written determination is a public record and shall be retained for public inspection in the same manner and location as this conflict-of-interest code. (Gov. Code Section 81008, 82019; FPPC Regulations 18219 and 18734.)

Consultants providing the services of designated positions shall be included in the list of designated employees and shall disclose pursuant to the broadest disclosure category in the code subject to the following limitation:

The Ethics Officer may determine in writing that a particular consultant, although a "designated position," is hired to perform a range of duties that is limited in scope and thus is not required to fully comply with the disclosure requirements described in this section. Such written determination shall include a description of the consultant's duties and based upon that description, a statement of the extent of disclosure requirements. The Ethics Officer's determination is a public record and shall be retained for public inspection in the same manner and location as this conflict-of-interest code. (Gov. Code Sec. 81008.)
