

Rates and Fees

The District annually evaluates its service needs, programs, and operational costs before recommending rate changes to the District’s Board of Directors. To continue the District’s long tradition of providing reliable water service to our customers, rate increases are needed to cover increasing operational costs.

Costs have and continue to increase in the areas of purchased water, pumping, treatment, electricity, meter reading, and billing. These increases are the result of the District’s 100 percent dependence on imported water supplies, drought, the region’s limited water reserves, and worsening environmental and regulatory conditions in Northern California’s San Joaquin Delta.

Multi-Year Rate Increase

In October 2014, the District’s Board of Directors adopted a 5-year rate setting strategy ([Rate Study/Tiered Rates Update](#)). The first increase took effect November 1, 2014. All following increases become effective on and after November 1 of each year beginning January 2015. Rate increases over the subsequent four-year period go into effect without further rate hearings. The rates are subject to pass-through charges, which could include increased costs from our wholesale supplier and/or “penalties” or “surcharges” for water use that exceeds the water supply allocation imposed on the District by its wholesale supplier.

Water Commodity Charge

The District’s commodity charge is based on water usage. The cost to the consumer for water is lower if less water is used and higher if more water is used. The commodity charge is metered in units. One unit equals 748 gallons.

Commodity Rate	Multi-Year Rate				
	2015	2016	2017	2018	2019
Tier 1 – Water Budget. All billed usage within Water Budget	\$4.25	\$4.61	\$4.86	\$5.25*	\$5.76
Tier 2 – Water Budget. Inefficient Use. All billed usage in excess of Water Budget	\$7.21	\$7.65	\$8.13	\$8.61	\$9.09

* The adopted rate increase for 2018 was reduced for Tier 1 water usage (within your water budget). This reduction is due to the District’s signing of an historic agreement to resume its right to pump groundwater from the Santa Ana River Basin in 2016. This monumental achievement ensures that more than half the District’s water supply is now provided locally at a lower cost. The District is passing on this savings by lowering the adopted 2018 Tier 1 commodity rate, saving customers .10 cents per unit of water. Tier 1 was set to increase to \$5.39 per unit in 2018, but will now be reduced to \$5.25.

Bi-monthly Service Charge

The District’s service charge is levied against all customers in the District on a bi-monthly basis based on the size of each meter on the customer’s premises. The charge recovers costs associated with providing water to the serviced property, which do not vary with consumption. These costs include meter reading and billing customers for each bi-monthly period, maintenance of meters and service lines in the distribution system, administrative costs, water quality testing, and salaries and benefits.

	Multi-Year Rate				

Bi-Monthly Service Charge (Based On Meter Size*)	2015	2016	2017	2018	2019
3/4-inch meter (typical single-family residence)	\$27.57	\$29.87	\$32.36	\$34.91	\$37.36
1-inch meter	\$68.92	\$74.67	\$80.91	\$87.28	\$93.39
1-1/2-inch meter	\$137.85	\$149.33	\$161.82	\$174.56	\$186.79
2-inch meter	\$220.56	\$238.93	\$258.91	\$279.30	\$298.86
3-inch meter	\$413.55	\$448.00	\$485.45	\$523.68	\$560.36
6-inch meter	\$1,378.49	\$1,493.32	\$1,618.18	\$1,745.60	\$1,867.87

*The District is often asked about the factors that determine the bi-monthly service charge. When a customer applies for a residential meter, several factors are taken into account to make sure the size of the meter matches the demand being placed on the water system by the proposed project. During the design phase of property improvement, the size of the meter is usually determined by the architect hired to design the building and its plumbing. This is done by taking into account the number of fixture units for the project. In addition, the City's fire department, in conjunction with the homeowner's fire protection engineer, reviews the size of the meter needed to meet code requirements for the fire sprinkler system.

Fire protection demands are a significant impact on the District's water system. The components of public and private water systems have to be properly sized to meet these demands, as well as normal usage demands. Even though the amount of water that is used overall for fire protection is small, a fire can have an enormous impact causing great demand on a water system for a short period of time. The service charge on a meter pays for the infrastructure needed to supply your demand at anytime 24 hours a day, 7 days a week. The revenues from the charge pays for the upkeep of piping, valves, pumps, energy standby charges, auxiliary equipment, storage tanks, and source water connections which are all the components needed to deliver a quantity of water for property and perhaps life saving protection.

Because higher costs are associated with larger meters, as described above, it would be inequitable for residential customers with a 3/4-inch meter to bear the cost burden for those customers with larger meters. The District's responsibility is to distribute costs equitably among all its customers.

Fee Schedule

Click the PDF link below to access the current Fee Schedule of the District. All fees are reviewed annually as part of the budget process and adjusted as needed.

[District Fee Schedule](#)

LAGUNA BEACH COUNTY WATER DISTRICT

FEE SCHEDULES

SCHEDULE NO.	SECTION	PAGE

03	PRIVATE FIRE PROTECTION SERVICE RATES	7
04	TEMPORARY FIRE HYDRANT METER SERVICE	8
05	MISCELLANEOUS CHARGES	9
06	SERVICE INSTALLATION CHARGES	11
07	RESERVE STORAGE FEES	12
08	ENGINEERING FEES AND MISCELLANEOUS CHARGES	13
09	EQUIPMENT RATES	14

INTRODUCTION**SERVICE AREA**

Portions of the City of Laguna Beach, adjacent unincorporated areas of Orange County and miscellaneous contiguous areas as may be requested.

FEE SCHEDULE UPDATES

The Board of Directors of the Laguna Beach County Water District reviews this Fee Schedule annually.

Fee Schedule No. 01**ESTABLISHMENT OF WATER SERVICE****ESTABLISHMENT FEE**

Laguna Beach County Water District assesses a one-time non-refundable Establishment Fee for each account opened. The fee will be payable at the time of application for service and will be assessed on the customer's first bill. The amount of the fee is \$25.

CUSTOMER INFORMATION

When establishing service, each new customer will be required to provide the following information:

Residential Customers

1. Customer Name
2. Service Address and Phone Number
3. Billing Address if different than Service Address
4. Social Security Number of Primary Customer
5. Landlord's Name, Address, and Phone Number if customer is a tenant.

Non-Residential Customers

1. Business or Organization Name
2. Service Address and Phone Number
3. Billing Address if different than Service Address
4. Federal Identification Number
5. Name of Contact Person

ESTABLISHMENT OF ACCOUNTS**CREDIT WORTHINESS**

All customers will be assumed credit worthy when they initially establish service from the District. A customer will be deemed not credit worthy if they:

1. Have two unpaid checks returned by the bank during the course of any twelve (12) consecutive month period.
2. Fail or refuse to accurately provide all information required by the District to establish service.
3. Is a former customer with an unpaid balance or have been sent to collections by the District.

Any customer who is deemed not credit worthy (as defined above) will be required to place on deposit with the District an amount equal to 2 times their average bi-monthly charges for water before service is established or continued. After eighteen (18) consecutive months of good payment history, the customer's deposit will be applied to the account balance or refunded without interest.

REESTABLISHMENT OF ACCOUNT FOR BANKRUPTCY CASES

To protect the interests of its customers and the financial integrity of the Laguna Beach County Water District, the following procedures are required for any customer who files bankruptcy:

- A. As of the date the bankruptcy petition is filed, the existing account will be closed and a closing bill generated. The closing bill and/or claim will be mailed directly to the Trustee/Administrator of the bankruptcy case for payment, and a copy mailed to the customer for reference.
 - 1. Any deposits paid on the account prior to the filing of the bankruptcy petition will be applied toward payment of the closing bill.
 - 2. A copy of the bankruptcy petition and/or the case number must be given to the District before a new account can be processed and/or before service is restored.
- B. A new account will be established as of the date the bankruptcy petition is filed and a deposit will be required as specified in paragraph C below.
- C. The law requires you to provide “Assurance” that you will pay your bills after filing for bankruptcy. A new account may be established after payment of a deposit in the following amount:

Residential:

\$200.00 per account or an amount equal to the monthly average of the previous twelve (12) billings, or if service has been provided for less than 12 months, the number of billings available, whichever is higher.

Commercial:

Restaurants: \$500.00 per unit.

Businesses (excluding restaurants): An amount equal to the monthly average of the previous twelve (12) billings, or if service has been provided for less than 12 months, the number of billings available. The amount of deposit must be at least \$100.00 and may not exceed \$1,000.00.

- D. The entire amount of the deposit must be paid before service can be reestablished. Payment installments are at the discretion of the District. Failure to adhere to the payment schedule shall cause the nonpayment procedures set forth under “Nonpayment Charges” to be implemented.
- E. Deposits will not be used for payment of services, except for the closing bill.

NOTE: For purpose of this schedule, the type of bankruptcy filed (i.e., Chapter 7, 11, or 13, etc.) does not affect the manner in which the account is handled. The same procedure applies to all bankruptcy cases and accounts. In some cases the Bankruptcy Judge may determine the amount of deposit allowable.

Fee Schedule No. 02**GENERAL METERED WATER SERVICE RATES****APPLICABILITY**

Applicable to all measured water service furnished for general domestic use.

BI-MONTHLY SERVICE CHARGE (ALL CUSTOMER CLASSES)

Bimonthly Service Charge – This is a service charge, which is added to the bill during the billing period. It covers operation and maintenance expenses for the entire water system regardless of water consumed.

METER SIZE	BI-MONTHLY SERVICE CHARGE				
	2015	2016	2017	2018	2019
¾" Meter	\$ 27.57	\$ 29.87	\$ 32.36	\$ 34.91	\$ 37.36
1" Meter	68.92	74.67	80.91	87.28	93.39
1 ½" Meter	137.85	149.33	161.82	174.56	186.79
2" Meter	220.56	238.93	258.91	279.30	298.86
3" Meter	413.55	448.00	485.45	523.68	560.36
6" Meter	1,378.49	1,493.32	1,618.18	1,745.60	1,867.87

WATER AND DELIVERY CHARGE

Water and Delivery Charge – Charge for actual water used during a two-month billing period, based on the total number of units registered by the meter. (One unit equals 748 gallons or 100 cubic feet)

ALL LBCWD CUSTOMER CLASSES

Tier 2 – Usage in excess of Water Budget	\$ 6.93	\$ 7.37	\$ 7.85	\$ 8.33	\$ 8.81

Fee Schedule No. 03**PRIVATE FIRE PROTECTION SERVICE RATES****APPLICABILITY**

Applicable to all private fire protection services.

RATES	FIRE MAIN DIAMETER	YEARLY CHARGE
	2"	\$ 48.00
	4"	96.00
	6"	144.00
	8"	192.00
	10"	240.00

CONDITIONS

1. The fire protection service connection will be installed at the expense of the applicant.
2. The maximum diameter will be not more than the diameter of the main to which the service is connected.
3. If a distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a service main from the nearest existing main of adequate capacity will be installed at the expense of the applicant.
4. The customer's private fire protection service, as well as the customer's domestic water service, must have approved backflow prevention devices.
5. There shall be no cross connection between the fire protection systems supplied with water from the District to any other source of supply. Any such unauthorized cross connection may be grounds for immediate disconnection of the fire protection service without liability to the District.
6. As part of the private fire protection service installation, there shall be a detector check or other similar device acceptable to the District, which will indicate the use of water. Any unauthorized usage will be charged as indicated in Fee Schedule 02, General Metered Water Service Rates, and/or may be grounds for the District to discontinue the private fire protection service without liability to the District.
7. Any rates for private fire protection service sizes not shown on this schedule will be based on \$2 per inch of service diameter per month. No charges will be assessed on any private fire protection service if it is metered through the domestic meter.

Fee Schedule No. 04**TEMPORARY FIRE HYDRANT METER SERVICE****APPLICABILITY**

Applicable to all measured water service furnished from a fire hydrant connection.

RATES

	RATE PER <u>METER</u>
DEPOSIT	\$ 975.00
MINIMUM SERVICE CHARGE: 14 days at \$6.19 per day	86.66
DAILY SERVICE CHARGE	6.19 per day over the 14-day minimum charge
WATER RATE (\$/CCF)	See Schedule No. 02

CONDITIONS

1. The District reserves the right to discontinue the service without notice if water is not used for a period of 60 consecutive days.
2. The customer shall notify the District to have service discontinued. The regular rates, including the minimum charge, shall continue until such notice has been received, unless the service is discontinued under #1 above.
3. The District will relocate a meter within the project three times at no additional cost. Additional relocations will be at a charge of \$15 for each move. A request for meter relocation must be made 24 hours in advance of the time needed.
4. If any damage to the District facilities is caused as a result of this connection, the applicant is liable for such damage and will be billed.
5. The billing cycle begins the day that the meter is set.
6. The Deposit will be used for payment of services on the closing bill. Any money left is refundable after the meter is returned to the District in good working condition.

Fee Schedule No. 05**MISCELLANEOUS CHARGES****NONPAYMENT CHARGES****Delinquent Notices**

Payment is due on the date that appears on the bill. Delinquent Notices are mailed 22 days after the original bill is mailed. A \$10 late fee will be applied to all delinquent notices if the payment is not received in our office. The delinquent notice allows 15 additional days to pay before a 48-hour tag is issued.

A one-time only reversal of this fee will be considered if the customer states they did not receive the original invoice or insists that the payment was mailed on time.

48-Hour Turn-Off Notice

A \$15 fee will be applied to the 48-hour door-tag notice. The 48-hour notice is issued the day after the final payment date printed on the Delinquent Notice. The 48-hour door tag indicates the date and time the water will be disconnected for non-payment. No extensions will be granted until a 48-hour door tag has been issued.

A one-time only reversal of this fee will be considered if the customer states they did not receive the 48-hour door tag.

Extensions

A \$10 fee will be applied to the bill if any further extensions are requested beyond the date listed on the 48-hour door tag. An extension may be granted for up to one week for the \$10 fee. A maximum of 2 extensions may be granted for the current billing cycle for \$10 each.

Reconnection

If water is disconnected for non-payment after the 48-hour notice is given, the reconnection fee is \$40 during normal business hours and \$75 for evening, weekend or holiday reconnections. Normal business hours are from 8:00 a.m. to 5:00 p.m. Monday through Friday.

Trim Notice

It is the customer's responsibility to keep landscaping and obstructions clear of the meter box. Customers are notified by door tag and given the opportunity to remove the obstruction. A \$25 fee will be applied to the bill if it is necessary for District staff to trim and/or remove landscaping or obstructions from around the meter box.

Unpaid Check or E-Check Charges

A \$15 service fee will be charged for each check or e-check returned from the bank for non-sufficient funds. All returned payments must be paid for in cash.

AutoPay

If a payment is returned resulting from the automatic payment process, a \$15 service fee will be charged.

COPY OF PUBLIC RECORDS

A request for a copy of an identifiable written public record, or information produced there from or a certified copy of such record shall be accompanied by payment of \$0.10 for each page. In some cases it may be necessary to send a document or document(s) to a printer or commercial copying service; and in such cases, the person requesting copies shall pay the total direct cost.

Fee Schedule No. 06**SERVICE INSTALLATION CHARGES****APPLICABILITY**

Applicable to all measured water service furnished for general domestic use.

CHARGES

Installation Charge - The installation charges for all services within the District shall be based upon a time and material cost. Prior to installation, the District will make an estimate of these costs, and a deposit in that amount shall be collected from the applicant. Should the total cost be less than the estimate, a refund will be made. In the event the cost exceeds the estimate, then the applicant shall pay the difference.

<u>ITEM</u>	<u>INSTALLATION CHARGES</u>			
	<u>3/4 inch</u>	<u>1 inch</u>	<u>1-1/2 inch</u>	<u>2 inch</u>
Meter	\$ 175	\$ 300	\$ 750	\$ 1,100
Meter box	125	125	150	150
Service	Estimate	Estimate	Estimate	Estimate
TOTAL DEPOSIT	Estimate	Estimate	Estimate	Estimate

CONDITIONS

1. **Increase in Size of Existing Meter and/or Service** - The installation charge will be determined by the District for each change requested.

If the customer's rate of consumption results in excessive wear of the meter, or is such that the meter is unable to measure the flow of water accurately, the District may increase the size of the meter and service and require payment of the actual cost of installing the new meter and service.

2. **Decrease in Size of Meter and/or Service** - The installation charge will be determined by the District for each change requested. No credit or rebate will be given for existing meters.

Fee Schedule No. 07**RESERVE STORAGE FEES****APPLICABILITY**

Applicable to all measured water service furnished for general domestic use.

RATES

<u>METER SIZE</u>	<u>RESERVE STORAGE CHARGE (per meter)</u>	<u>CREDIT</u>	<u>TOTAL CHARGE PAYABLE</u>
3/4"	\$ 820	\$ 820	\$ 0
1"	1,270	820	450
1-1/2"	1,820	820	1,000
2"	2,320	820	1,500

CONDITIONS

1. The above rates are reserve storage fees for single metered lots that are not considered under the acreage reserve storage fee.
2. The Board of Directors has determined that a credit equal to the charge for a 3/4" meter will be considered when figuring the reserve storage charge for each and every lot.
3. For all new land and subdivision developments requesting water the District, at the option of the District Commissioners, may collect a reserve storage charge upon an acreage basis. The current reserve storage charge is \$10,369 per acre. This fee is updated annually. The basis for the reserve storage fee is the acreage of the property being served divided by the total net acreage within the boundaries of the District, times the sum of the District's utility plant value.
4. Reserve storage fees for meters that are upsized will take into consideration fees paid for previously installed meters. There will be no refunds for downsizing.

Fee Schedule No. 08**ENGINEERING FEES AND CHARGES****APPLICABILITY**

Applicable to fees and charges required for work done in the Engineering Department.

ENGINEERING FEES - Non-Refundable

PLAN CHECK:

1 Lot	\$ 50.00
2 - 5 Lots	150.00
Over 5 Lots	250.00

CONSTRUCTION INSPECTION	(1)
CALTRANS PERMIT	50.00
WATER AVAILABILITY LETTER	35.00
ARCH BEACH REIMBURSABLE FEE	90.00 per lot
MAIN EXTENSIONS	(1)
SERVICE RELOCATION	(1)
SERVICE ABANDONMENT	T & M Estimate
BACKFLOW DEVICE INSPECTION/TEST	(2)
FIRE HYDRANT FLOW TEST	50.00.
SYSTEM PRESSURE CHECK	50.00

- (1) These services will be provided on a time-and-material basis. A \$100 non-refundable fee for main extensions and a \$50 non-refundable fee for any other item will be collected prior to preparing a cost estimate for the work. The cost of the fee will go towards the total cost of the project. This is an estimate only and is valid for 60 days. Actual time and material costs may run over or under the estimate, which may result in either added charges or a refund.
- (2) Any inspection or test will be charged \$50.00 per visit

Fee Schedule No. 09**EQUIPMENT RATES****APPLICABILITY**

These rates apply to all District owned equipment and do not include operator.
